It’s a dirty world out there. Protect your facility with Crane Composites resilient wall coverings. Our Glasbord with Surfaseal creates surfaces that deliver unsurpassed hygiene and durability for commercial environments such as restaurants and food processing plants.

Made of fiberglass reinforced plastic (FRP), Glasbord with Surfaseal is extremely moisture-resistant and non-porous. The Surfaseal film finish, found only on Glasbord, provides a barrier that’s highly resistant to impact and scratching. Because of its unique process, the Surfaseal finish will not trap soil or bacteria on the panel. The surface is up to 10 times easier to clean and up to six times more stain resistant than other sanitary wall systems. The sturdy panels, which come in both pebbled and smooth textures, hold up under frequent maintenance cycles, and proven performance at an affordable price point with a 10-year limited warranty.
GLASBORD with Surfaseal

PEBBLED EMBOSSED TEXTURE

White | 85
Colonial White | 83
Ivory | 84
Soft Beige | 70
Stone | 15

• Polyurethane Seam Sealant

MANUFACTURING FOR OVER 60 YEARS!

A global leading provider of resilient wall and ceiling coverings. Kemlite was established in 1954 and the company changed names to Crane Composites in 2007. Crane Composites is headquartered in Channahon, IL and all our products are manufactured in the United States. We work with hundreds of distributors, ensuring our products are easily accessible and readily available to our customers.

USDA/FSIS CERTIFIED

Glasbord panels meet USDA/FSIS requirements for a finished outer surface material that is rigid, durable, non-toxic, non-corrosive and moisture resistant.

FACTORY MUTUAL APPROVAL

Glasbord (FXE and FSFM) is the only interior FRP panel that is accepted under Factory Mutual Research approved Plastic Interior Finish Materials when installed in accordance with Factory Mutual Research Approval Standard 4880. This information is available at cranecomposites.com/FMApproved.pdf.
