GLASBOND[™]
SELF ADHESIVE FRP

GLASBOND Self-Adhered FRP Wall Panels

Crane Company has been providing innovative solutions for over 70 years. Our new patent pending GLASBOND self-adhered frp panels combine the great features of **GLASBORD**® FRP with a pressure sensitive adhesive prefabricated to the backside.

Current FRP installations can be time consuming and messy. This can cost end-users and installers money in a challenging labor market. That is why we created the next generation in FRP. Our peel & stick GLASBOND panel installs much faster with less mess and clean-up time. This can significantly reduce labor costs for installers.

GLASBORD has been protecting facilities with resilient wall covering surfaces that deliver unsurpassed hygiene and durability for commercial environments such as restaurants and food processing plants. Glasbond builds on the time-tested success of our traditional Glasbord product installation with a new self-adhesive feature. This provides a faster, more consistent, and cleaner application that reduces total applied cost.

still amazing on the front BUT SOMETHING NEW ON THE BACK

GLASBOND with **GLASBORD** advantage

Made of fiberglass reinforced plastic (FRP), **GLASBORD** with SURFASEAL® is extremely moisture-resistant and non-porous. The SURFASEAL film finish, found only on **GLASBORD**, provides a barrier that's highly resistant to impact and scratching. Because of its unique process, the SURFASEAL finish will not trap soil or bacteria on the panel. The surface is up to 10 times easier to clean and up to six times more stain resistant than other sanitary wall systems. The sturdy panels, which come in both pebbled and smooth textures, hold up under frequent maintenance cycles, and proven performance at an affordable price point with a 10-year limited warranty.

GLASBOND Product Specs

PANEL COMPOSITION:

GLASBORD PWIP Skin with Pressure Sensitive Foam Backing

COLOR:

White (85)

FINISH:

Pebbled Embossed Finish

THICKNESSES:

0.15" (overall thickness) | 0.09" (panel thickness)

AVAILABLE SIZES:

4' x 8' | 4' x 10'

FIRE RATINGS:**

Class C per ASTM E-84 | CAN/ULC-S102

GLASBOND TRIMS

Complete the GLASBOND installation process with GLASBOND TRIMS. GLASBOND TRIMS are PVC contractor grade two-piece moldings. Use exclusively for GLASBOND panels with a self-adhered back plate and a front plate that clicks into place.

Profiles include division bar, inside corner, and end caps in 8' and 10' lengths. Utilize standard GLASBORD PVC outside angle moldings for all other needs.

APPLICATIONS:

- Commercial Kitchens
- Food Processing Plants
- Restrooms
- Convenience Stores
- Locker Rooms
- Cleanrooms
- Cultivation Facilities
- Cold Storage

FEATURES:

- Mold + Mildew Free
- Meets USDA/FSIS Requirements
- Easy to Install
- Cleanable
- Durable

DUE TO LIMITATIONS OF THE PRINTING PROCESS, PATTERNS AND COLORS MAY VARY. THEY ARE A REPRESENTATION OF THE PRODUCT. PLEASE OBTAIN A SAMPLE BEFORE MAKING A FINAL SELECTION AT FRPSAMPLES.COM

Faster and easier to install.

STEP 1: Clean dry surface

STEP 2: Measure + cut panel

STEP 3: Peel + release liner

STEP 4: Apply + level the panel

STEP 5: Roll the panel

STEP 6: Apply the trim back plate

STEP 7: Apply next panel

STEP 8: Tact the front trim

STEP 9: Roll the trim

STEP 10: Repeat to complete
