

The Crane Fund Donates to American Red Cross

CHANNAHON, IL, April 25, 2023 – On March 31, 2023, severe thunderstorms tore through the U.S. Midwest and Mid-South where they spawned dozens of tornadoes across seven states. Some of the hardest-hit areas were in Arkansas, including the town of Wynne. Although Crane Composites' facility in Jonesboro, Arkansas has not been affected, the Southeast Missouri & Northeast Arkansas Chapter of the American Red Cross reported that since the storm, they have provided over 75,000 meals, distributed over 5,000 clean-up kits and had 800 volunteers working to assist in the communities impacted across the South.

Jonesboro and the surrounding communities mean a lot to the Crane family. As such, The Crane Charitable Funds has provided a generous donation to the American Red Cross to help support the communities during its recovery.

Thank you to the American Red Cross for your support during this difficult time.

About Crane Composites

Crane Composites Inc., a subsidiary of [Crane Company](#), is the world's leading provider of fiber-reinforced composite panels. We combine our expertise in composite material science, process and technology with a deep understanding of customer needs to deliver innovative products that outperform traditional metals and woods. Our lightweight composite products deliver unsurpassed strength and durability.
